## **Nova Scotia Association of Medical Radiation Technologists First to Implement the Timeless Health Professional Membership System in Nova Scotia**

Comprehensive Online Member Management System Will Serve to  
Lighten NSAMRT's Administrative Load

FOR IMMEDIATE RELEASE:

Charlottetown, PE, Canada – August 13, 2008 – Timeless Medical Systems' Health Professionals Membership System has been successfully implemented with Nova Scotia Association of Medical Radiation Technologists' custom requirements, and is now in use by the association. The Timeless Health Professionals Membership System is a full featured, online member management system for health professional associations and societies.

The Health Professionals Membership System is a web or browser based system that allows members to logon and update their information anywhere they have access to a computer with an active internet connection. The system allows customizable member fields, processes member renewals, provides reporting capabilities (such as Health Human Resource Forecasting) and easily integrates with outside information systems, such as those required by the Canadian Institute for Health Information's (CIHI) Health Human Resources Database Development Project.

"We are very pleased to have our own version of the Timeless Health Professionals Membership System. We now have access to up to date member information and can export data to CIHI with the click of a button," stated Karen Aucoin, registrar of the Nova Scotia Association of Medical Radiation Technologists.

The Health Professionals Membership System will serve to lighten the administrative load of the Medical Radiation Technologists by simplifying their renewal process and assisting in formulating human resource strategies through use of the system's retirement calculator tools.

"We are very pleased to announce the first implementation of the Timeless Health Professionals Membership System in Nova Scotia is with the Nova Scotia Association of Medical Radiation Technologists. We have developed a very close working relationship with Karen and the NSAMRT during the development of their custom version of this system," said John Rowe, president of Timeless Medical Systems.

### **About the Nova Scotia Association of Medical Radiation Technologists**

The Nova Scotia Association of Medical Radiation Technologists (NSAMRT) represents over 550 members in Nova Scotia in various fields of medical radiation technology. We are involved in total patient management, from diagnosis to treatment, and directly influence patient management. Many members of the association are also involved in important research and in public education of many current health care issues. There are primarily four divisions within the field which include, Radiological Technologists, Radiation Therapists, and Nuclear Medicine Technologists & Magnetic Resonance Imaging Technologists.
